

Has your company gone mobile?

Ours has.

"Sharing my mobile app with my friends, family and clients is like having my very own, personalized electronic business card at my clients fingertips. Giving them the capability to view and share live listings virtually anywhere...it doesn't get much better than this!"

- Deana Calandrucchio, RE/MAX Country, Milltown

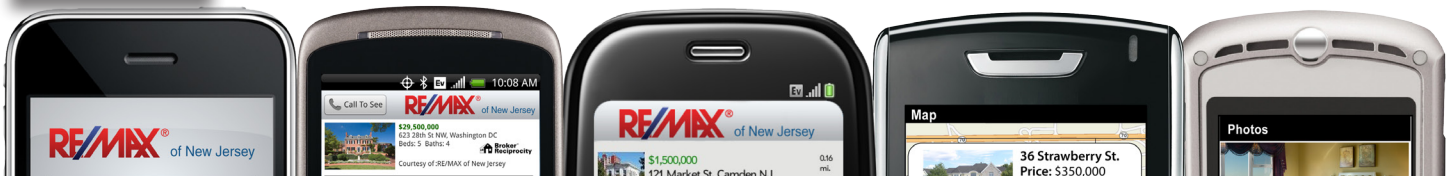

"Having the RE/MAX Mobile connection is not only a great tool for RE/MAX Associates - but it is a great tool for our clients. We try to be consistent by making sure that clients, both buyers and sellers, are aware of the unique mobile application. Once they use it, they call us back saying how wonderful it is and it's like carrying the entire MLS System with them...wow!"

- Dan Corrigan & Lori Intoccia, RE/MAX Platinum Group, Sparta

"I email out the RE/MAX Mobile app to every contact that I have, whether they are a buyer, seller, or just someone in my Sphere of Influence. The response that I received is great! People love to see pictures, descriptions and prices of homes whether they are in the market for a home or not. The app is user friendly and the "Send to a Friend" option is a great feature which enables my contacts to send it to their contacts which connects them to me!"

- Kelly Blum, RE/MAX Beach Home Realty, Sea Isle City

RE/MAX of New Jersey provides each and every Associate their own, self-branded mobile app, for free.

Can your company say the same?
